

MANZAR MAMEDOVA

Java Backend Developer

Tbilisi, Georgia | manzar.mamedova20@gmail.com | github.com/manzarmamedova | [LinkedIn](#)

PROFESSIONAL SUMMARY

4th-year Computer Science student at Tbilisi State University with hands-on experience in Java and Spring Boot backend development. Experienced in building RESTful APIs using Spring Security, JWT authentication, and relational databases (PostgreSQL, MySQL). Strong understanding of layered architecture, object-oriented programming, and backend system design. Focused on developing scalable backend applications through real-world personal projects.

TECHNICAL SKILLS

Languages: Java, C++

Frameworks: Spring Boot, Spring Security, Spring Data JPA

Databases: PostgreSQL, MySQL

Backend: REST API, JWT Authentication, Layered Architecture, OOP, Validation, Exception Handling

Tools: Git, GitHub, Postman, Maven, DBeaver, Docker, Render (deployment)

PROJECTS

DevBlog

Java 21, Spring Boot, PostgreSQL, Docker, Spring Security

[Live Demo](#) | [GitHub](#)

- Developed full-stack blog platform with authentication and role-based access
- Built REST APIs for posts and comments using Spring Data JPA
- Implemented i18n (EN/TR/KA), caching, scheduled tasks, and monitoring
- Containerized application using Docker and Docker Compose, deployed live on Render with a managed PostgreSQL instance

MyFinanceApp

Java 17, Spring Boot, Spring Security, JWT, PostgreSQL

[GitHub](#)

- Built secure finance backend with JWT authentication and BCrypt encryption
- Implemented CRUD operations and filtering for users, categories, and transactions
- Applied layered architecture with validation and global exception handling
- Designed scalable backend structure using Spring Boot

TodoApp

Java 17, Spring Boot, PostgreSQL

[GitHub](#)

- Built REST API for task management with CRUD operations
- Implemented filtering, validation, and layered architecture
- Used JUnit, Mockito, and MockMvc for testing

EDUCATION

Tbilisi State University

B.Sc. Computer Science • 2023 – Present (4th Year)

CERTIFICATIONS

- Data Structures & Algorithms Competition — DataArt
- Project-Based Learning in Computer Science — Tbilisi State University

LANGUAGES

Azerbaijani — Native

Turkish — Full Professional (C2)

Georgian — Full Professional (B2)

English — Limited Working (B1/B2)
